## WEB DEVELOPMENT

### About Me

Highly motivated Computer Science student with extensive web development and programming experience. One year at Guide Way Software Peshawar and three months at Quantum Academy Peshawar, skilled in HTML, CSS, JavaScript, and WordPress. Completed custom-coded websites including a labor link construction system, school management system, and network chat system, plus various WordPress projects. Eager to leverage my expertise in a dynamic, innovative environment..

### Experience

#### Software Development

Guide Way Software, Peshawar

- Developed web applications using HTML, CSS, JavaScript, and WordPress.
- Designed and implemented new features with cross-functional teams.
- Participated in code reviews to improve code quality.

#### Projects:
